

ALCHEMY FOR MANAGERS

According to a recent CIPD survey 43% of people are dissatisfied with the relationship they have with their managers. Good quality management is the cornerstone of any thriving business and yet many managers are left stuck, struggling or overwhelmed because they do not have the appropriate support mechanisms in place.

'Alchemy for Managers' has been designed as an informational safety net for busy managers so they can immediately access the data they need to support, motivate and manage their teams to not only meet but exceed business goals. The Alchemy e-library provides managers and business owners with a menu of practical topics so they can access the right piece of information as and when they need it.

Claire Walsh of Learning Consultancy Partnership is looking for six Cadia members from different sized organisations to test drive Alchemy for Managers within their organisation for a period of six months for free. If you are interested please contact Claire Walsh, Learning Consultancy
